REPORT OF FIRE WARDEN FOR 1942

During the past year, a second portable pump for forest fires and farm buildings was added to the departments equipment. This pump is of about 150 gallons per minute pumping capacity and is carried on a small trailer donated to the firemen by Lewis Caverly, Road Agent. The trailer was rebuilt and reconditioned by Deputy Warden Albert Sprague assisted by Roy Prescott, Charles Weeks, Sedley Bartlett, and Charles Cowing.

The conversion of our old pump and adapting it to a marine motor was engineered by the department's

machinists, Sherman Carter and Paul Weeks.

All labor was furnished by the firemen and the cost of \$126.00 for the motor and materials was granted by the Civilian Defense Fund. Five hundred feet of 1 ½" hose was ordered for extra forest fire protection but the State was unable to supply. Fifteen five gallon Pack Pumps were purchased however and this item was also granted by the Civilian Defense Fund. These were purchased on the 50-50 basis in cooperation with the State Forestry Department.

The 1942 fire record for our town follows: Number of fires or investigations, 2.

Area burned, 5 acres.

Number of permits issued, 76.

Further detail data available upon request.

REPORT OF SUPERINTENDENT OF SCHOOLS

Another Rural School Closed

Last year, the Dolloff School was closed because of small enrollment. This year, the Robinson Hill School was kept open until about Thanksgiving, when so many had moved away that the school board voted to close this school also. At the presenpt time the only one-room school now maintained in town is the one at Meredith Center. This now has an enrollment of about 16 pupils, and while families come and go making many changes from year to year, there seems no prospect of a decrease to a point where there would be any question about maintaining the school.

Schools in War Time

More and more the impact of wartime conditions is making itself felt in the lives of our children. Although we may work earnestly to provide the normal conditions of work, play, and growth to which childhood is entitled, it is increasingly difficult to do so.

Your teachers and superintendent are called on to devote many hours to duties quite apart from the job you are paying them to do. The rationing of food and fuel oil, and the sale of war stamps and bonds, represent only a part of our duty to Uncle Sam and the boys in the service. In order to save gasoline and tires, it has been necessary to check over with care all the school bus routes, as a part of a national survey. These routes have been combined in some cases, and frequently children are required to walk part way between home and school. Lack of transportation has also obliged us to curtail teachers meetings for the duration.

Some benefits to children, however, may develop out of the war emergency. An increased emphasis on health and physical education is one of the important advantages. Many teachers have availed themselves of the

First Aid courses conducted by the Red Cross. Such attention is being given to the matter of nutrition of growing children, and school lunches are provided in many schools throughout the country. Special efforts are being made to interest children in gardening under the "Food for Freedom" campaign. Such things as these ought not to have to wait until a war comes; and it may prove worth while to continue them after the conflict is over.

Practical aspects of education, especially as related to war service, are emphasized, prticularly in the high school. The progress of aviation demands more emphasis on mathematics, mechanical skills, study of weather conditions, and principles of flight. A new slant on geography has been developed; the distance between two cities may now be measured as a straight line, even though a range of mountains may lie between them.

School costs shot upward rapidly during the course of the first World War in 1917 and 1918. The teacher shortage is definitely more serious now than it was then, and the high wages now paid for various types of war work are influencing the trend of teachers' salaries today. No one can foretell with accuracy what the prevailing rate of increase may be for next year, but it takes no prophetic insight to forecast some increase in the salary schedules of teachers in general throughout the State.

Respectfully submitted,
ALMON W. BUSHNELL
Superintendent of Schools.

REPORT OF THE HEADMASTER

To the Superintendent of Schools, the Board of Education and the Citizens of Meredith:

The teachers and pupils of Meredith High School join me in appreciation of your constant support, your enthusiastic interest in our activities, and the generosity you display when we call upon you, collectively or individually, for assistance.

Registration to date in the senior high school is 124 compared to a total of 155 of last year. The drop in registration is accounted for, largely, by families moving away from this vicinity to industrial areas. During the past few months a few of the senior boys have entered the armed services. Attendance for the past year was 95.2% and tardiness was 0.5%. Both percentages show a slight improvement over the previous year, and both compare favorably with the state average.

Twenty-three seniors. were graduated last June Most of the boys are now in the armed service or expect to be called in the near future. Two of the girls are continuing their education elsewhere and the rest are engaged in various occupations. Many members of the class had made plans for post-secondary education, but these plans, in most cases, have been set aside that these young men and women may make their contribution in the present national emergency.

Throughout the country high schools have been called upon to make their contribution to our war effort. Since our armed forces require a large percentage of technically trained men the school has increased its offering in mathematics by adding a year of algebra. This now provides four years training in this field. Pre-

flight Aeronautics is offered this year, with twenty-three seniors enrolled. The need for physical education, which the school anticipated by introducing two years ago, is being carried on and since the mid-date of this year has been extended to five periods each week for each pupil. The present physical fitness course is presented in accordance with specifications provided by the United States Army. The boys receive this instruction under the direction of Mr. Ralph Perkins, and the girls under Miss Jane Langer. Because of the difficulties of transportation the basketball schedule was cut to ten games for the season and most of the trips made by train. Both teams have enjoyed a successful season.

The Annual H. Stewart Bosson Prize Speaking Contest was held during the Spring term of last year. First prize for a serious subject was awarded to Donald Pocock. First prize for a humorous subject went to Donald Merrill.

Mrs. Bosson provided the gold pin awards and continues to encourage this valuable activity through her interest. We are much indebted to her for this support.

Preparations for defense against air raids were made last year through the acquisition of some much needed equipment, the organization of emergency squads, first aid squads, and messenger squads. Drills were held in order that the pupils might be moved quickly to those parts of the building where they would receive the greatest amount of protection. Many other activities such as joining the Red Cross, receiving training in first aid, messenger service for the Report Center, etc., were carried on. This year the school continues these activities and in addition is purchasing war stamps and bonds in considerable quantities. The total purchased by both schools to date amounts to about \$2500. Special effort is being made to adapt all subjects offered so that the best preparation possible will be provided to those of our pupils who will soon be entering the armed forces or war industries.

The 18th annual meeting of the Alumni Association was held at the Grange Hall on the evening of June 12th. The following officers were elected:

President Mrs. Sherman Carter
Vice President Bradbury Sprague
Secretary Mrs. Harry Plummer
Treasurer Mrs. Robert Malonev
